

Program Specific Outcomes (PSO):

PSO 1: Acquire a deep understanding of the core theories in Educational Philosophy, Sociology, and Psychology.

PSO 2: Develop knowledge of the history of the Indian education system, including its policies, commissions, and committees that have shaped its evolution.

PSO 3: Apply concepts from Guidance and Counselling, Peace Education, and Value Education in real-world classroom scenarios and societal contexts.

PSO 4: Gain awareness of contemporary issues in education, including challenges and emerging trends that impact the field.

PSO 5: Enhance communication skills through presentations on educational topics and interdisciplinary themes, demonstrating proficiency in academic discourse.

PSO 6: Design and construct instructional frameworks, including both academic curricula and co-curricular activities.

PSO 7: Integrate Information and Communication Technology (ICT) into the learning process, enhancing educational delivery and engagement.

PSO 8: Develop an understanding of current educational challenges such as SSA, inclusive education, unemployment, population growth, poverty, and national disintegration.

PSO 9: Apply theoretical knowledge from education alongside statistical techniques and pedagogical analysis to generate new ideas and approaches.

PSO 10: Foster qualities of self-sufficiency, independence, and critical thinking, recognising that education is a lifelong process that empowers students to tackle future challenges.

PSO 11: Cultivate a sense of responsibility towards society and the nation, while promoting global awareness by comparing India's education system with those of other developed nations.
