

Program Specific Outcomes (PSO):

- PSO01: Enhance understanding of the spatial-temporal relationship between humans and nature.
- PSO02: Familiarise students with the content of Geography and its relevance to everyday life.
- PSO03: Relate different geographical phenomena and their surroundings.
- PSO04: Increase awareness of contemporary geographical issues.
- PSO05: Develop communication skills through paper presentations on the subject and interdisciplinary themes.
- PSO06: Demonstrate proficiency in interpreting and applying cartographic and statistical techniques, including indigenous methods.
- PSO07: Integrate and apply indigenous practices using ICT.
- PSO08: Acquaint students with current geographical problems, such as demographic issues, urban spatial issues, geopolitics, gender space, the multidisciplinary nature of geography, and the use of technology in geographical studies.
- PSO09: Explore new ideas through the application of theoretical knowledge in geography, statistical techniques, geoinformatics, and analysis.
- PSO10: Foster self-sufficiency, sincerity, and independent thinking, empowering students to face future challenges and lifelong learning.
- PSO11: Develop social responsibility and promote national and international awareness by explaining core concepts related to physical, regional, and human geography.
